What Happens During the Exam Launch Process?

Review the following demonstration video: [LIVE HUMAN PROCTORED LAUNCH](#). At the time of your exam, you'll log into your ProctorU account and be guided through a 10- to 15-minute start-up process that will verify your identity, review the rules of your exam, and get you into your exam. Be sure to [test your equipment](#) before test day to minimize the chance of technical issues. If you experience any technical issues during the start-up process, ProctorU technicians will work with you until the problem is resolved. This time is not subtracted from the time you're allowed in your exam. In extreme cases when you cannot connect due to technical problems, you may have to reschedule.

1. **Login to your ProctorU account** 2-3 minutes before your scheduled appointment and click Start Session when the countdown timer reaches 0:00:00.
2. **Pre-checks:** If you don't already have the ProctorU extension, you'll be prompted to download it. You'll be required to accept exam guidelines and [terms of service](#). The browser will prompt you to share your screen, a required part of being proctored online. You'll be automatically guided through a series of equipment checks to make sure your system meets minimum requirements.
3. **Photos & Authentication:** You'll take a photo of yourself as well as your I.D. for identity verification purposes.
4. **Chatbox download:** You will be prompted to download and run a LogMeIn Rescue applet file that will bring up a chat box allowing you to text with your proctor. If prompted, be sure to click "open" or "allow" to give the file permission to run. When the chat box says "waiting," it means that you are in the queue waiting for your proctor. TIP: If your status shows "waiting," do not re-download the applet file as that will put you back at the end of the queue.
5. **Proctor Connection & Confirmations:** Your proctor will greet you and confirm that you passed your identity verification steps. You'll review the exam rules with your proctor and they'll ask to see any permitted resources that your instructor has allowed you to use during your exam.
6. **Remote System Check:** Your proctor will ask to take remote control of your mouse and keyboard via the LogMeIn Rescue applet in order to make sure no unpermitted programs are running. Your proctor may need to disable the screen shot/display settings and close any open programs. If you're on a Mac, your proctor will [turn off the ability](#) to use your keyboard screenshot hotkeys. You will be able to see everything that your proctor is doing during this step, and it is impossible for them to access any files without your knowledge.
7. **Camera Pan:** Your proctor will ask you to show the 4 walls of your room as well as your desk space via your webcam. You may be asked to show your computer monitor using a mirror or cell phone camera. Your proctor will ask you to place your cell phone out of reach.
8. **Navigating to the Exam & Password Entry:** Your proctor will then direct you into your exam delivery system so that they can unlock your exam with the password they've been provided by your instructor/organization.
9. **Take Your Exam:** Your proctor will release control of your computer and you'll begin your exam when you're ready.

NOTE: Your webcam view and your screen will be recorded through the duration of your exam.

Steps to take when you've completed your exam:

1. **Alert the proctor when finished BEFORE submitting:** Prior to submitting your exam, let your proctor know through the chat box that you're finished. They will oversee the submission process. You may also be required to tear up any scratch paper that was used during the exam.
2. **Review results:** Upon finishing the exam, your results will be displayed immediately. You may review for as long as you'd like. You will also receive a copy of your results by email.
3. **Log out of your exam site and browser:** After reviewing your results, your proctor must observe you log out of the exam website and close out of *all* browser tabs.
4. **Close out of ProctorU chat box:** This will end your session with ProctorU. Once the chat box closes, you'll be invited to complete a customer satisfaction survey.
5. **Done:** You're done! Enjoy your day!

If you **Cancel** or **No Show** the exam, you will need to pay \$125.00 rescheduling fee if you wish to take the exam.
